PROFILE

With 3+ years Software development experience passionate about crafting clean, responsive web interfaces using HTML, CSS, JavaScript, and modern frameworks like React.js. Proven experience in building scalable UI components and optimizing UX across platforms.

WORK EXPERIENCE

Spike.sh
MAR 2023 - PRESENT
Software Developer

- Engineered a secure web app for uploading and managing government documents with Firebase services, including real-time authentication (OTP, CAPTCHA, phone number) and cloud-based document storage.
- Optimized front-end for 100% responsiveness, building 15+ pages using Bootstrap, CSS Flex, and HTML.
- Implemented 5+ interactive components with Handlebars and jQuery to enhance UX.
- Designed an Intercom widget and notifications page, increasing user engagement by 30%.
- Created 10+ markdown-based content pages, reducing content creation time by 40%.
- Enhanced metadata for social sharing, improved link previews, and developed 10+ APIs with validation, ensuring 99.9% uptime and security.

Accenture
AUG 2019 – MAR 2022
Software Engineering Analyst

- Led BAU releases for frontend and backend, resolved issues, guided juniors, and reduced code errors by 40%.
- Managed a special project through the SDLC to address critical user-impacting issues and developed 10+ API endpoints.
- Resolved 50+ Oracle database issues, optimizing data storage by 20% and served as primary contact for storage/retrieval coordination.

COURSES

The Complete Full Stack Web Development Bootcamp
APR 2022 – DEC 2023

EDUCATION

Bachelor of Engineering – Computer Science
2015 – 2019
Dayananda Sagar College Of Engineering | VTU

GPA: 9.2 / 10.0
